

AMINE BOULILA

Software Engineering Student — Cloud/DevOps & AI/ML Engineering

amin.boulila@gmail.com • +216 58 204 024 • Tunis, Tunisia • [linkedin.com/in/amin-boulila](https://www.linkedin.com/in/amin-boulila) • github.com/amine-boulila

PROFESSIONAL SUMMARY

Software Engineering student (Top 10 of cohort) with 3 internships spanning AI/ML, cloud infrastructure, and backend engineering. Built production and research systems including LLM fine-tuning and OCR pipelines, RAG-powered agents, and cloud-native AWS architectures. Skilled in Python, TypeScript/JavaScript, and distributed systems, consistently improving accuracy, latency, and cost across every project. Seeking Cloud & DevOps or AI/ML Engineering roles.

SKILLS

Programming Languages: TypeScript, JavaScript, Python, Java, C++, C#, C

Frontend & Mobile: React.js, Next.js, Angular, TailwindCSS, Flutter

Backend & APIs: Node.js, NestJS, Express.js, Spring Boot, .NET, Django, REST APIs, Microservices, RabbitMQ, Kafka

AI & Machine Learning: LLM Fine-Tuning (Qwen), RAG Systems, NLP, OCR Pipelines, PyTorch, TensorFlow, YOLO, Scikit-learn

Databases & Big Data: PostgreSQL, MongoDB, Redis, OpenSearch, Hadoop, Spark

Cloud, DevOps & Practices: AWS (VPC, ECS, RDS, S3, CloudFront), Docker, Kubernetes, Docker Swarm, CI/CD, GitHub Actions, Git, Agile/Scrum, System Design, Consensus Algorithms & Fault Tolerance

Soft Skills: Team Leadership, Cross-Functional Collaboration, Communication, Ownership

PROFESSIONAL EXPERIENCE

AI Engineering Intern · Attijari Bank, Tunis

Jun 2026 – Aug 2026

- Fine-tuned a Qwen LLM via LoRA on bilingual banking mortgage dossiers to extract structured entities, amounts, and dates — lifting extraction accuracy to ~92%
- Deployed the model into the manual document-review workflow, cutting reviewer time by ~40%
- Orchestrated an end-to-end OCR → LLM → validation pipeline on Redis queues and PostgreSQL with async workers and retry logic, processing 500+ documents/day at ~30% fewer failed jobs

Software Engineering Intern · Optima Logistics, Tunis

Jun 2025 – Aug 2025

- Shipped a secure digital wallet module in Django with REST APIs, enabling multi-currency transactions for 1,000+ users
- Refactored database schemas and query patterns, cutting average query latency by ~150ms and improving endpoint response times by ~25% under load

Research Intern — Distributed Systems · Digital Research Center, Sfax

Jun 2024 – Aug 2024

- Implemented distributed synchronization algorithms in C (Lamport clocks, token ring, leader election), validating correctness on a simulated 20-node cluster across 15+ failure scenarios
- Authored a comparative technical report benchmarking 5 consensus and fault-tolerance algorithms on latency and recovery time

PROJECTS

AI Insurance Agent | BH Assurance

Python · RAG · NLP · LLMs · Vector Search

- Engineered a RAG-powered AI agent for personalized policy recommendations, cutting average query resolution time by ~35% vs. keyword search
- Combined semantic retrieval (embeddings + vector DB) with LLM reasoning to power context-aware, multi-turn responses for 200+ daily queries

3-Tier Cloud Architecture & Container Migration | AWS

AWS (VPC · ECS · RDS · S3 · CloudFront) · Docker · Cloudflare

- Architected a highly available, multi-AZ AWS infrastructure and migrated a monolithic EC2 deployment to containerized ECS with auto-scaling, cutting infrastructure costs by ~20%
- Provisioned RDS Multi-AZ, ElastiCache, and S3 + CloudFront for persistence, caching, and CDN delivery, improving page load times by ~30%

E-commerce Platform

MERN Stack · Docker · GitHub Actions

- Launched a full-stack e-commerce platform (500+ SKUs) with authentication, cart, and payment integration
- Deployed via a Dockerized backend and automated CI/CD pipeline, cutting deployment time by ~40%

EDUCATION

B.Eng. in Software Engineering · Faculty of Science of Tunis

2024 – 2027

Pre-Engineering (Top 10 of cohort) · Faculty of Science of Tunis

2022 – 2024

CERTIFICATIONS

AWS Certified Cloud Practitioner · NVIDIA Deep Learning Fundamentals

LANGUAGES

Arabic (Native) · French (Advanced) · English (Advanced) · Spanish (Basic)
